

Reception Class Celebration Page!

Zachariah

Here are all the numbers Zachariah has written from 1-100 from memory on his first week back at school!

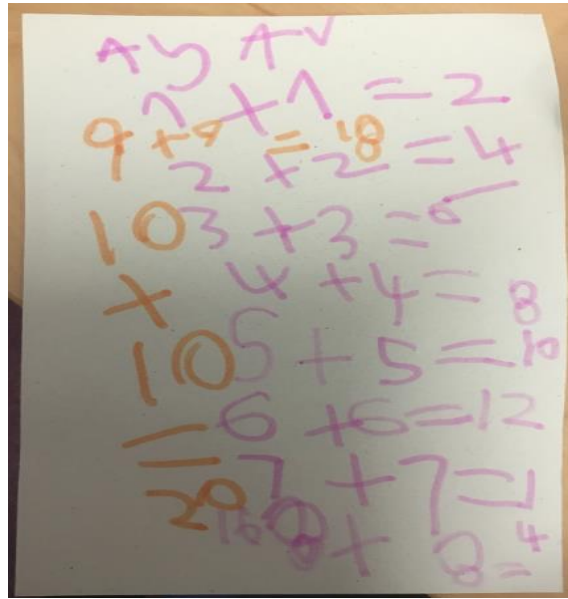

He has also used 2D shapes to create this picture of a scene from the story of Hansel and Gretel after naming the common 2D shapes!

Aya

Aya has been exploring doubling numbers this week. She worked hard to complete these doubling sums independently!

She has also been making stick puppets of characters from the story of Hansel and Gretel and using them in her role play of the story!

Well done to all the
children in Reception
Class working at home
and school! I am looking
forward to celebrating
more of your hard work
next week!
