

Update Monday 22nd January 2021

Dear Parent /Guardian,

We begin the fourth week of Spring Term with over 80 children learning on site at school. These are children who's parents are Key workers or who are deemed vulnerable.

The curriculum both at home and at school follow a mirrored approach using the class Learning Grid which is found, password protected, on the Teaching and Learning area of the website.

There has been a great response to the planned learning and you are welcome to look at the Class Celebration pages on the website, to be found in the classroom area.

Please continue to look out for a phone call from us on Tuesdays and make use of the class email to send work through to the class teams especially for the Celebration Page.

New from today is our **Daily Report Card**, for a full explanation please check the website and also look at this week's Learning Grid. We want you, or your child, to email this to the class email each day. We hope it will prove to be a simple way of showing us that the children are engaging with their work and how they are getting on.

From this week we will also post **recorded video** from your child's class on our website so please do look out for that too.

On Thursday this week we will be making the **food hampers** available for collection between 10:30 and 11am. The hampers contain a considerable amount of foodstuff so please remember to bring the 'bag for life' that you were given last time, a shopping trolley or something of similar strength.

Please continue to keep our whole school and parish community in your prayers.

Yours sincerely,

Mr D O'Regan
Head of School
