

Accessibility Policy and Plan
St James the Great Catholic Primary School

This plan is drawn up in accordance with Schedule 10 of the Equality Act 2010 which requires schools to draw up, publish, implement and review a written plan to

- increase access to the curriculum for disabled pupils;
- improve the physical environment of the school to increase access for disabled pupils
- improve the accessibility and availability of information to disabled pupils

The Act defines disability as when a person has a 'physical or mental impairment which has a substantial and long term adverse effect on that person's ability to carry out normal day to day activities.'

This plan recognises what is already in place in our school and includes future steps we will take.

Future steps have been identified as part of the process of drawing up, implementing and reviewing the School Improvement Plan, updating the School SEND Report, regular and ongoing consideration of existing and potential barriers to learning and to access to the school and to information and ongoing engagement with parents.

Access to the curriculum and participation in school activities

This involves increasing the extent to which pupils with a disability can participate in the school curriculum and activities.

The school has already:

- Provided specialist hardware and software for the use of pupils with fine motor skill difficulties.
- Ensured that provision is made for children with disabilities in all of the trips undertaken by the school.
- Provided specific training for staff in Early Years on supporting children with a social communication and speaking impairments.

During 2021-2024 the school plans to:

- Provide training for support staff to support children with SEND during class PE lessons as well as offering additional PE sessions where this will be most beneficial to pupils with additional needs or a disability.
- Provide training for teachers so as to implement branch mapping for children who need these smaller steps to track and capture progress.
- Provide bespoke support and training for staff to support children with specific medical needs so that these needs can be safely and successfully managed within the school setting.

Access to the Physical Environment

This involves improving the physical environment of the school to improve access to the building and its facilities for all members of the school community

The school has already:

- Investigated impact of layout and environment on children with ASC or other additional needs and changed room layout to facilitate this.
- Sourced specialist furniture to meet the needs of children with physical and medical requirements.

During the 2021 – 2024 the school plans to:

- Source additional PE resources/equipment for children with additional physical needs.
- Review the condition and replace where necessary, of finger-shields on doorways so as to keep the environment safer for those pupils with reduced mobility.

Access to Information

This involves improving the delivery of information to any member of the school community who has a disability

The school has already:

- Produced newsletters in alternative formats, e.g. pictures to illustrate news, on-line so can be enlarged.
- Consulted with parents, staff and pupils on the accessibility of information on the school website and amended as appropriate e.g. providing images (minimum text) and videos.

During the 2021- 2024 the school plans to:

- Continue to provide the opportunity for a staff member (Inclusion Manager/ learning Mentor) to meet with parents who need support in accessing information such as school applications, SEND consultations etc.
- Support parents who do not speak English and need information translated.

Access to the curriculum and participation in school activities 2021- 2024

Area	Current Barrier	Objective	Actions	Time-Scale
Teaching and learning	There are increasing numbers of children working at a level below their key stage and needing to access preceding keystone curriculum in some areas.	<p>To use branch mapping for setting work and assessment.</p> <p>To use a curriculum which best fits the child's needs to plan activities.</p>	<p>Provide training for teachers on branch mapping for children who need these smaller steps.</p> <p>Provide support and training for staff where children need to access a curriculum at an earlier stage eg accessing Early Years curriculum objectives for children who are in KS2.</p>	Autumn 2022
PE Lessons	Children with SEND may find it hard to participate fully in class PE lessons as cognitively the vocabulary used and instructions are challenging.	Develop alternative activities which are simpler to follow. Include additional PE lessons where appropriate.	Provide training for support staff to support children with SEND during class PE lessons as well as offering additional PE sessions where this will be most beneficial.	Summer 2021/Autumn 2022
Activities and Trips	Children with specific medical needs may find it hard to participate in more active lessons and trips.	Ensure children can take part in active lessons and a range of trips.	Provide bespoke support and training for staff to support children with specific medical needs.	Summer 2021

Access to the Physical Environment 2021- 2024

PE lessons inside and outside	Children with SEND and physical disability may find it hard to participate fully in class PE lessons as the playground space or equipment may not meet their needs.	Allow children to participate in class PE lessons.	Investigate the facilities in the playground for children with additional needs. Source additional PE resources/equipment for children with additional physical needs.	Summer 2021
Doorways to classrooms and main corridors	Children, especially with compromised mobility could injure fingers if finger shield deteriorate sufficiently	Ensure that finger guards are maintained to avoid injury	Monitor and replace when necessary, damaged finger guards.	Autumn 2021

Access to Information 2021 - 2024

EAL families and families needing support with written communication	Increasing numbers of parents for whom English is not their first language or are not confident in written English who are unable to access particular aspects of educational information.	Ensure parents are able to read and understand school paperwork, including SEND information.	Continue to provide the opportunity for a staff member (Inclusion Manager/ learning Mentor) to meet with parents who need support in accessing information such as school applications, SEND consultations etc.	Ongoing as needed from Spring 2021
EAL families	Increasing numbers of parents for whom English is not their first language who would benefit from speaking to someone who can translate into their home language.	Ensure parents are able to discuss school information when they have questions.	Support parents who do not speak English and need information translated. Use visuals to support parents with signposting to further help and advice.	Ongoing as needed from Summer 2021
